The sleep is a vital process of resting the body, mind and soul.

At the Best Western Nice Cosy Hotel we offer you – within the limits of available stock – different pillows to try. We have undergone a special training and therefore able to advise you the best pillow to choose for your sleep.

Three types of pillows are at your disposal. You can make your reservation request by e-mail at the following address: reservation@nice-cosy-hotel.com or upon arrival with our reception staff.

- Our pillow **GOOD**, featherly soft and hypoallergic feather pillow: created to offer you the same fluffy and prestigious comfort as a feather but without giving up the luxury of an ergonomic pillow. **Good** offers a targeted support and a gradual welcome.
- Our pillow **SENSE** is for when you wish maximum Ergonomics: anallergic and anatomical, the innovative Myform Air adds to the ergonomics of shape memory pillows a high breathing capacity, to provide targeted support of the neck and head.
- Our pillow **GWEN** is when you prefer a rigid and sustained support: dedicated to those who prefer rigid comfort. Gwen is a sustained, anallergic and breathable pillow that offers a perfect elastic response and a uniform support.
